Get your school, daycare or camp active at Balls of Fun!

- Balls of Fun is North America's **only** children's ball gym. We have been bringing ball activity to the community, schools, daycares and camps for over four years. Created and developed by a qualified and experienced elementary and secondary teacher, this facility is designed to enhance gross motor development and ball skills. Balls of Fun has been featured in Today's Parent magazine and on the news as *the place* to bring children for active fun.
- Moreover, this 7,000 square foot facility is a safe and clean environment for your group. We use Shaklee, an environmentally friendly cleaning product, endorsed by Oprah Winfrey, to keep the facility and the equipment clean. Balls of Fun also changes its gym equipment monthly to provide children with new opportunities to practice ball play. So your group may experience new ball-themes with each visit.
- During your visit, your group may also use the party room for **free!** This is a great room to enjoy drinks, snacks or lunch. We do offer a pizza lunch or you may bring your own **peanut and nut free** food into the facility.
- During the summer we only have 25 spaces for group outings, so call us if you want to make us a part of your summer outing itinerary. However, throughout the school year, Balls of Fun provides many schools and daycares with a large space to conduct gym class, and the facility is a great destination for an active group outing.
- Check out the Balls of Fun website for more facility information, and take a look at the school, daycare and camp contract. Admission per child goes down \$1.00 with every group visit, until admission is **only** \$5.00 per child. Admission prices are based on a one year period.
- Visit or call us to see why Balls of Fun is the destination that more and more schools, daycares and camps choose for a safe, fun and active time together!
